DRUKFRITEUSE / FRITEUSE À PRESSION

Smaakvolle & sappige kip uit de drukfriteuse Minder verbruik: goed voor portemonnee en gezondheid

Bij een drukfriteuse bakt het voedsel in olie en onder druk. Deze druk ontstaat door het sluiten van het deksel over de frituurpot. Drukfriteuses zijn uitermate geschikt voor het bakken van grote volumes kip, maar ook van andere snacks of gerechten. Het vocht en de smaak blijven in de kip, met minder olie in het product zelf.

Poulet savoureux et juteux de la friteuse à pression

Moins de consommation: bon pour votre porte-monnaie et votre santé

Avec une friteuse à pression, les aliments cuire dans l'huile et sous pression. Cette pression est créée en fermant le couvercle sur la poêle à frire. Les friteuses à pression sont idéales pour frire de grandes quantités de poulet, mais également pour d'autres snacks ou plats. L'humidité et le goût restent dans le poulet, avec moins d'huile dans le produit lui-même.

XPRESS GRILL

Dubbelzijdig grillen met Garland

De bovenste en onderste bakplaat van de Xpress grill bakt beide zijden gelijktijdig en zorgt voor een 50% kortere baktijd. De zeer juiste temperatuurcontrole zorgt ervoor dat alle voeding wordt gegrild tot de juiste "hart" temperatuur en garandeert dat iedere gebruiker dezelfde kwaliteitsstandaard bereikt. De snelle recoverytijd en korte opwarmperiode zorgen voor energiebesparing tussen de piekperiodes tijdens het bakken.

Griller des deux côtés avec Garland

Les plaques de cuisson supérieure et inférieure du Xpress grill cuisent les deux côtés simultanément et garantissent un temps de cuisson réduit de 50%. Le contrôle très correct de la température garantit que tous les aliments sont grillés à la bonne température "cœur" et garantit que chaque utilisateur atteint le même niveau de qualité. Le temps de récupération rapide et la courte période de réchauffement assurent des économies d'énergie entre les périodes de pointe de la cuisson.
